SKILLS

Languages: Java, Python, JavaScript

EDUCATION

Secondary School   **2015-2021**

School Name :- GOREGAON ENGLISH SCHOOL

Diploma in Computer Engineering   **2021-2024**

College Name :- KALA VIDYA MANDIR INSTITUTE OF TECHNOLOGY

Relevant Coursework: Object Oriented Programming, Data Structures and Algorithms, Operating Systems, Computer Networks, Android Developer Course - Android Fundamentals

PROJECT WORK

1. **INVESTIQ**

It is a web application using Dash (a python framework) and some machine learning models which will show stock plots based on the stock code given by the user. Also the ML model will enable the user to get predicted stock prices for the date input by the user.

CERTIFICATES

- Advanced Python for Data analysis
- Android Developer Course - Android Fundamental
- Data Structures and Algorithms
- Web Development using HTML and CSS

INTERNSHIP

- Data Science, AI with Machine Learning using Python

WORK EXPERIENCE

1. **Call2Connect :- Process – 365Squared(Tester)**

- Perform manual and hybrid testing for login, signup, OTP generation, and validation.
- Analyze OTP traffic to detect, block illegal requests, and ensure secure system flow.
- Support secure account creation and onboarding processes.
